

BIO-GREEN®

Bio-Based PET from Renewable Resources
生質聚酯纖維來自可再生資源

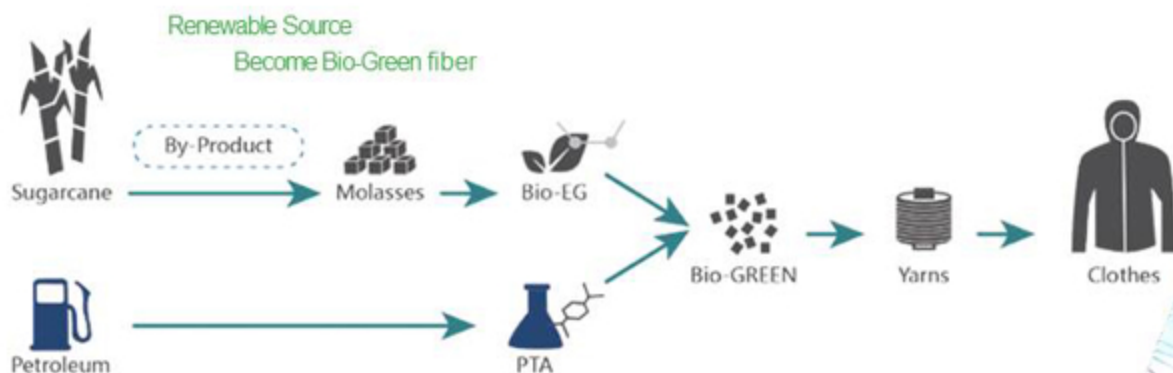

ECOMATERIAL 環保材質

BIO-GREEN®

Bio-Based PET 生質聚酯

BIO-GREEN® is a fully renewably sourced polyester made from Bio-EG & PTA. It offers a lower carbon footprint and more sustainable alternatives to conventional fossil fuel based synthetic virgin polyester.

BIO-GREEN® 是一種使用可再生材料為原料的聚酯，由 Bio-EG 和 PTA 製成。比起傳統石化燃料基合成的聚酯纖維，BIO-GREEN® 提供更低的碳足跡和更環境友善的聚酯。

We Care about the Earth

- Renewably Sourced Polyester-Made of Bio-EG & PTA 聚酯纖維原料利用可再生資源製成
- Reduce 25% CO₂ Emission 減少二氧化碳排放
- Same Performances as Virgin PET 與一般聚酯纖維比較性能不減

Renewable Reduce CO₂ ECO-Friendly
