## SPANFIT<sup>®</sup>

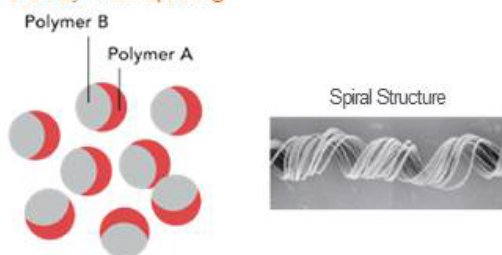

Conjugate Mechanical Stretch 雙組份彈性纖維

SPANFIT<sup>®</sup> is a self-curling stretch yarn with side-by-side conjugate spinning technology. When heated, the polymer shrinks at a different rate, forming a spiral-curved structure with excellent elasticity, recovery and bouncing.

SPANFIT<sup>®</sup> 彈性纖維是採複合紡絲技術，加熱時聚合物縮率不同使紗線形成螺旋捲曲結構，具優異的彈性及回復力。
