

ELTTOB[®] Recycled Fiber

ELTTOB[®] is a newly developed recycled polyester fiber from Tainan Spinning Co., Ltd. The fiber made from recycled flakes not only reduces the pollution of PET bottles, but also has similar processing properties to ordinary polyester fibers. We have obtained “Global Recycled Standard Version 4.0” certification, and all production and marketing conform to related regulations.

Features:

- ◆ Reduce the resource consumption of disposing of recycled bottles.
- ◆ Lower the use of petrochemical materials, reduce the burden on the global environment.
- ◆ Other functions (ex. moisture control, cationic dyeable) can be combined and product specification is customizable.

Specification:

ELTTOB[®] Recycled Fiber Series

Type	Features	Specification
Luster	Recycled Bright, Semi-dull, Full-dull	POY : 40~240D/24~144F DTY : 25~150D/24~144F
Water Transfer Hi Cool [®]	Dry & comfortable Cross-section moisture wicking fiber	POY : 80D/48F、80D/72F、120D/48F、120D/72F DTY : 50D/48F、50D/72F、75D/48F、75D/72F
Cationic Dyeable	Brightly colored、duotone Excellent color fastness Soft to touch	POY : 40~240D/24~72F DTY : 25~150D/24~72F T/CD : 50~150D/48~144F
Staple Fiber	Responding to environmental protection, energy saving, eco-friendly	1.2~1.4(denier) length 32、38mm

Certificates:

※GRS certificate
