

# FISHING NET RECYCLED NYLON FIBER

RAW FISHING NETS IN CONTAINER

Zig Sheng Industrial Company has been working on recycling waste fishing nets into nylon chips and technical yarns then remade into product. Applications can be customized by different requirements, from FDY to DTY, 40D to 800D, commonly used for activewear, fashion wear, footwear, travel goods and sports gear.

With increased global environmental awareness, waste plastics, bottles, and fishing nets are the focus items that damage the water and aquatic creatures. Zig Sheng has made the first step to create green future.

FISHING NETS VIA MELTING, DROWING AND CUTTING INTO CHIPS
